Cambridge Computer Based Tests

Emphasis

The University of Cambridge ESOL examinations are recognised around the world. Kaplan can help you prepare for the First Certificate in English (FCE) or the Certificate in Advanced English (CAE). All Kaplan International Colleges in Australia and New Zealand are Cambridge ESOL computer-based testing centres. With the computer-based tests (CBT), you will receive the same Cambridge certificate, benefit from more frequent exam dates and a shorter wait for results.

This programme is suitable for motivated students who want to gain an internationally recognised English language qualification in a computer-based format.

Why choose the Computer Based Tests?

- The same high standards of testing and the same Cambridge certificate but computer based
- Natural extension to e-learning but with the advantage of a face-to-face oral examination
- More exam dates per year
- Shorter application time—students can register up to a week before the exam
- Shorter wait for results—a CBT candidate can receive their results through the results on-line service within 5 weeks
- Take a computer based test at a Kaplan International College and we will organise everything for you!
