Your Route to Academic Success

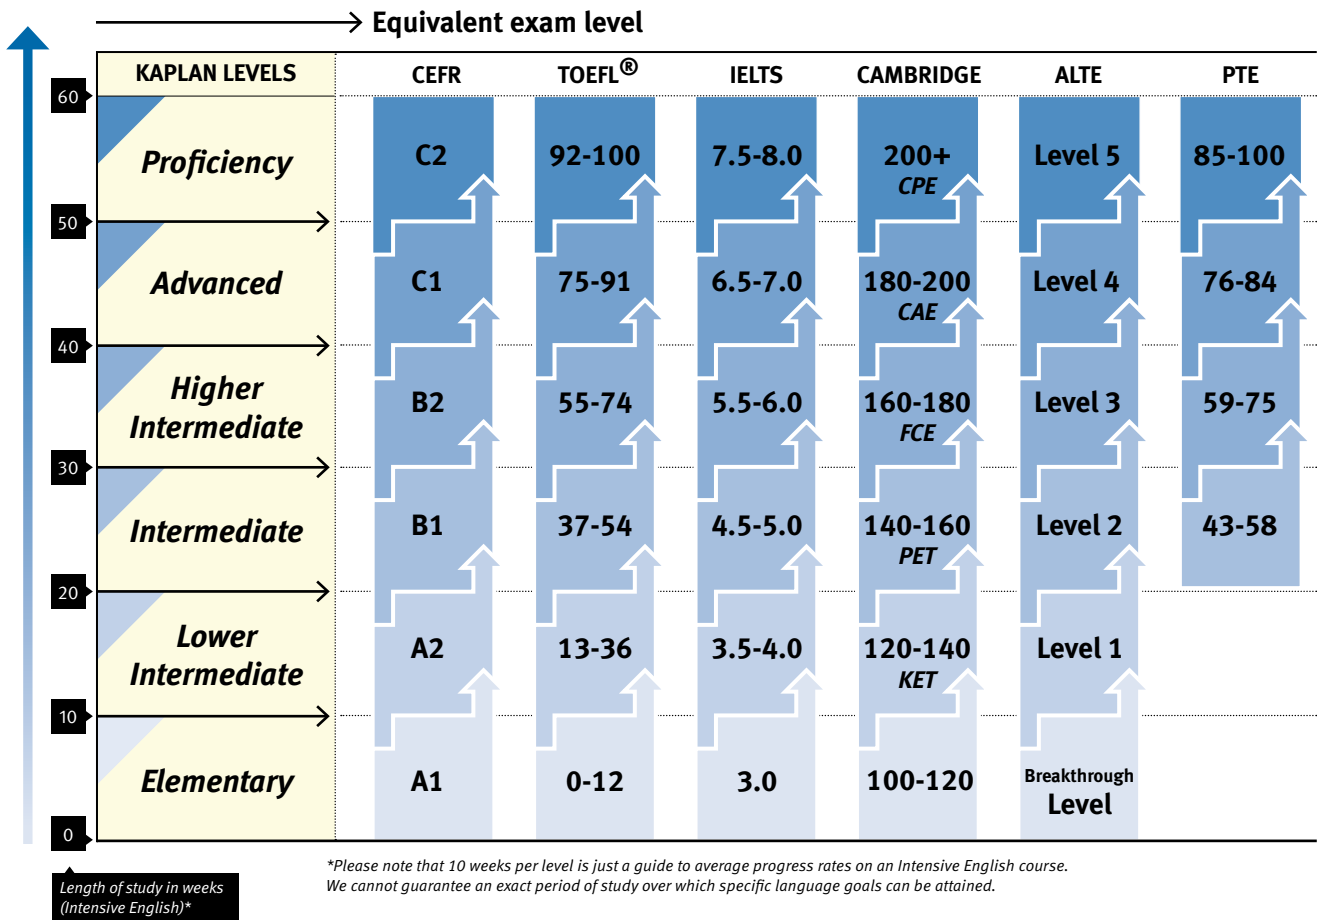

Not sure what you want to study? Don't worry! Kaplan International will help you decide!

Selecting a program and institute takes time and consideration. If you have an idea of what you want to study, you should think about the type of degree or diploma you want to obtain in the USA. Do you want to graduate with a diploma, bachelor's, or master's degree? Also think about the different types of education: in general college education is more practical and prepares you for a specific career, whereas university degrees are more academically focused or research based.

Progress and level chart

The chart below shows the progress you can make with a Kaplan language course. On arrival at your school you will be given a proficiency test to enable our staff to place you in the correct class for your level of language ability. Regular progress tests during the course will then allow your teachers to monitor your level of improvement.
